### ECIS membership form

The *European Colloid and Interface Society e.V.* (ECIS) is a non-profit society with the objective to advance colloid and interface science and to promote cooperation between European scientists. Particular emphasis is given to the support of young scientists. The Society seeks to cooperate with national societies within Europe as well as with other international organizations. The Society seeks to achieve its objectives by

- Organising each year a conference in a European country in the field of colloid and interface science
- Making awards at the conference to recognise and promote excellence in the field of colloid and interface science
- Organising a conference each two years in a European country for research students in the field of colloid and interface science.
